**Subject: Scope of Cooperation in Second Energy Management Award**

United Nations Industrial Development Organization (UNIDO) in partnership with the Iranian Fuel Conservation Company (IFCO) as national implementing agency is implementing the project entitled, "Industrial Energy Efficiency in key sectors" which is funded by Global Environment Facility (GEF).

The Project aims to make a major contribution towards Iran's long-term energy efficiency strategy and promote energy efficiency in industrial energy intensive sectors by developing a framework for National Energy Management Standards, assisting in capacity building through training in energy management system and system optimization.

In line with the project objectives and reference to the meeting between UNIDO team and Iran-Energy Management Award (IEMA), UNIDO will cooperate with IEMA in the second national Energy management Award with the aim of promoting energy management culture in industrial sectors in accordance with the terms and scopes stipulated herein.

1. UNIDO will authorize to use its logo in all activities of the Second National Energy Management Award;
2. UNIDO will provide four on-site Energy Performance Indicators (EnPI) Training courses which will be held by national qualified UNIDO's trainer, as the complimentary for implementation of Energy Management System (EnMS). The training is provided free of charge for the top four enterprises among Petrochemical, Refinery, Iron and Steel and Cement sectors;
3. UNIDO will cooperate in covering the news stories of the event via mass media, project website and social media;
